ABOUT ME

I am a dedicated fourth-year Computer Science student at Ecole Supérieure de l'Informatique SIDI BEL ABBES with a strong passion for web and mobile development. Skilled in Django for backend development and Flutter for creating cross-platform mobile applications, I also have a solid foundation in Python, Java, and cloud technologies like AWS. Additionally, I am gaining expertise in data engineering and embedded systems, focusing on building scalable data pipelines, efficient data processing solutions, and low-level system programming. Throughout my academic journey, I have built several projects that demonstrate my ability to solve complex problems and deliver efficient, scalable solutions. I am eager to leverage my skills and knowledge in a dynamic environment to contribute to innovative projects and continue growing as a developer.
